PREMIUM PACKAGE (MAINTENANCE)

1. During maintenance user can:

- Download and use for free available manufacturers' libraries from the CADprofi internet server (only for CADprofi licenses).
- Download for free from the CADprofi internet server current program updates that contain content extensions (additional symbols, standards etc.), functional enhancements and adjustments to new versions of base CAD programs.
- Access free technical support (hotline).
- Install a single-seat license on an additional computer of the same user (eg home computer) under condition, that at the same time only one program will be used.
- Use previous software versions (downgrade).

2. Maintenance duration and renewal:

- Maintenance is not renewed automatically.
- Perpetual commercial licenses can also be used after the maintenance package expires.
- Maintenance can be renewed with an additional fee immediately prior to its expiration (does not apply to time licenses). The new maintenance duration starts from the previous maintenance expire date and not from the date when maintenance renewal was bought.
- Maintenance renewal must cover all CADprofi licenses on the particular computer (for CP-Symbols licenses it is required to purchase an update).
